

Product Sheet

10 Ft. Serpentine - Model # S-001

All Out of the Box Exhibits are light weight, extraordinarily sturdy and made from 100% recyclable material. No need for shipping, drayage or warehousing. They are reasonable enough to recycle and rugged enough to reuse. But the best feature is our price. We encourage you to compare our products with other and you will immediately realize the Out of the Box advantage.

Tradeshow Displays

An economical, eco-friendly, light weight, no-tools-required, disposable booth system with the design flexibility necessary to present a message in a creative and professional manner. We offer an array of face panels to create different configurations. After the show it is affordable enough to be left for recycling or durable enough to be reused. It is, in the truest sense, an “out of the box” solution.
